Skynex

since 1998

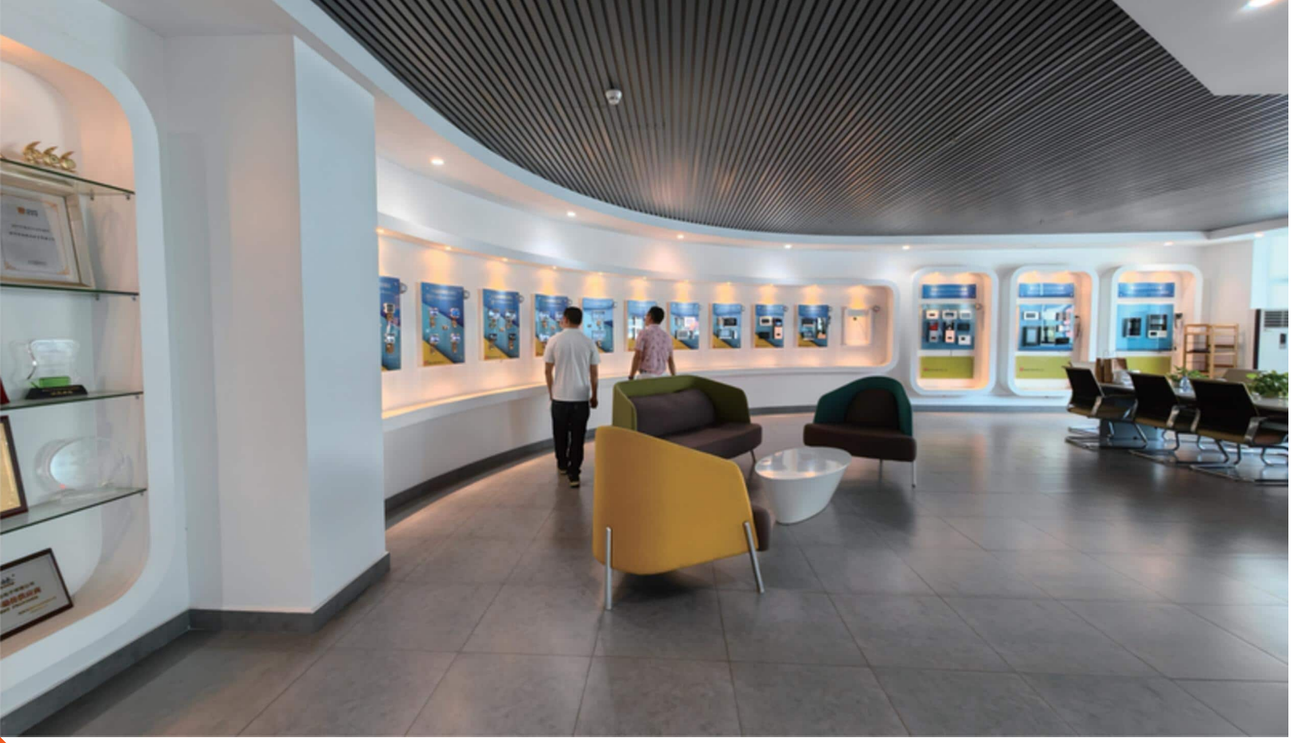
27+ Years

OEM/ODM Video Door Phone Intercom Manufacturer

Looking for Distributors Around the World

BUSINESS COOPERATION

One Stop Solutions of Video Door Phone Intercom



COMPANY PROFILE

Skynex is the only source manufacturer of video door phone intercom in China since 1998 from TFT LCD, Driver board, Camera module to Villa and Apartment intercom. We support customized software & hardware / UI interface / Function / Package, Etc.

First, Skynex provide SKD solutions to assembly factories, such as in lran,Turkey, Korea, ltaly, which can reduce product cost and customs. 50% of the assembly factories in China also buy semi parts from us.

Second, we have proven and rich experience with large apartment projects. 28 direct marketing branches for the domestic market in China. More than 10000+ big building VDP intercom projects over 1000, 3000, 5000 apartments in 1 community. Choosing us will be your right choice if you also have engineering projects for apartment.

Last but not least, Carefree after-sales services. After purchasing our products, we add after-sales tech group to guide you program,setup ,installation, wiring, etc. NO MOQ , support OEM/ODM. Welcome to do sample testing.

Certification

In 2006

Led China's video door phone intercom industryfrom black and white CRT to color LCD screen technical revolution.

SKYNEX Invested 4 million dollars to establish a 4-inch screen production line and became the first enterprise in China to produce 4-inch color LCD screens.

In the same year, the display drive technology made a major breakthrough, reducing the cost of video door phone intercom color LCD module, the cost is lower than the mainstream black and white CRT display module at that time.

Since 2010

SKYNEX established a nationwide marketing network in China, with 26 direct branches and agents.

In 2016

SKYNEX became the designated Supplier of Smart Nation in Singapore. Establish a security equipment supply company in Singapore with a Singapore-listed security service provider, Then, SKYNEX brand undertakes Singapore Smart Nation project.

In 2018

The market share of Italy top first.

Provide LCD module with driver board for the top three video door phone intercom enterprises in Italy.

Become the Italian video door phone intercom color LCD screen, driver board, OEM/ODM whole machine export share first

In 2020

The market share of South Korea and Turkey ranges first. SKYNEX released Android platform products, leading China's video door phone intercom cloud intercom reform.

SKYNEX become the first and second video intercom brand ODM supplier in South Korea.

SKYNEX become the top three video door phone intercom brand ODM supplier in Turkey.

For the renovation project, SKYNEX launched the Android platform wifi indoor monitor,which can compatible with cloud access control products of different brands in the market.

In 2023

SKYNEX was named the top 10 brands in China's video door phone intercom industry.

Shenzhen International Marketing Center was established to focus on foreign markets.

In 1998

SKYNEX factory was established.

Focus on R&D of color LCD screen and LCD display driver board technology.

Released small and medium-sized TFT LCD screen and LCD display driver board.

SKYNEX was the first enterprise in China to launch such products.

From 2007 to 2009

SKYNEX became the first market share of video door phone in China.

After the first release of 4.3 inches, 7 inches and other products, in 2009 became the first market share of video intercom display driver products, the market share of more than 90%.

After the first release of 4.3 inches, 7 inches and other products, in 2009 became the first market share of video intercom display driver products, the market share of more than 90%.

In 2015

SKYNEX became excellent OEM/ODM supplier for first-line brand of video door phone intercom products in domestic and foreign. SKYNEX was awarded as the excellent partner of by LEELEN.

In 2017

SKYNEX factory moved from Shenzhen to Dongguan manufacturing center, and the production line expanded to 14 , including: 1 LCD screen cutting line, 1 patch line , 1 Bonding line, 1backlight line , 7 SMT patch lines, 3 production assembly lines.

SKYNEX was named the top ten most influential brands of China's security video door phone intercom.

In 2019

SKYNEX was named the top10 most influential brands of Chinese security video door phone intercom.

The annual sales volume of indoor monitor LCD module with driver board exceeded 2 million pieces.

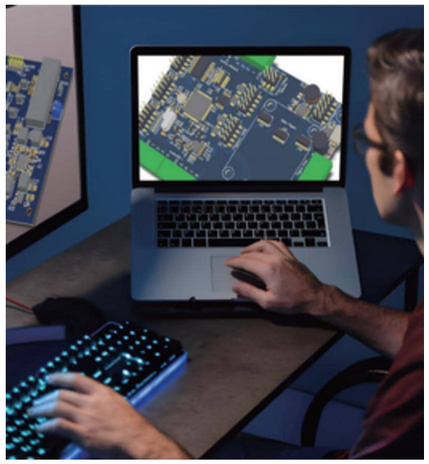
SKYNEX invest in the R&D of cloud video door phone intercom technology based on WAN.

In 2021

All SMT production lines upgraded to YAMAHA rapid patch machines to achieve fast and high-precision production.

Pre-sale Services

- Airport pickup service for foreign customers.
- Arrange chartered bus direct factory service, because foreign customers are not familiar with Chinese transportation.
- Remote live broadcast, video visit the factory, watch the exhibition hall and each production line.
- Appearance mold design, customize private mold.
- Color design and customization.
- Multi-language customization.
- Software protocol docking.
- Hardware development, custom LCD screen, different sizes and resolutions.
- Customize LCD module driver board.
- Customize camera module for video doorbell.
- Customize UI interface .
- LOGO Customization.
- Smart home protocol docking.
- Elevator control system protocol docking.
- Customize power supply, external power supply and internal power supply.
- Plug customization: European regulation, American regulation, British regulation and other power connector customization.
- Video door phone intercom system optimal scheme design.



In-sale Services

- Product user manual customization.
- Product model label customization.
- Product packaging box customization.
- Set the room number of outdoor station and indoor monitor well before leaving the factory.
- Set IP network configuration table well before delivery. After the customer receives the goods, just connecting POE switch to test and use.
- According to the customer's local country requirements, cooperate with them to get the product testing certificate.
- Support customers other suppliers goods sent to our company for storage, together with our products packaged and delivered to the customer's designated address.
- According to the customer's designated transport mode; customer's forwarder to delivery; or help customers introduce stable and reliable freight forwarder.
- Help customer identify other suppliers in China.
- Take video for customer confirmation all the goods after production well before delivery.

After-sale Services

- Warranty Time: all company products provides one-year warranty service.
- Remote technical support: we support remote video guidance and installation services, as well as send related electronic files.
- Remote room number table setting, IP address import configuration, and send related training files, or video guidance files.
- We can provide customized service for maintenance parts.
- For the long-term cooperation of large agent customers, we can support our factory technology cross-border door-to-door training services.
- VIP customers can enjoy the application for maintenance spare machine and maintenance spare parts complimentary service.
- Within 7 days after receiving the goods, if there are product quality problems, price errors, out of stock, logistics and transportation damage, etc., you can apply for return or exchange after taking photos and videos to us for confirmation.

IP Villa Kit (CAT6)

Function

1. IP 7" color capacitive full touch screen Tuya / Smart life app indoor monitor
2. View wide angle 110°, night vision, IP65waterproof outdoor station
3. Video call, talk, intercom , room to room call , unlock
4. Connect with electric lock , keys to unlock , Mobile Tuya remorte control visual ,unlock.
5. Support connect CCTV Camera by Onvif protocal
6. Monitoring & Snapshot photo when vistor call
7. Support 8 photos, 8 leave messges, 10 call records. Not support SD memory card
8. Support multi call panels, multi indoor monitors up 99 pcs when add POE
9. Open 1 door

Specification

- ●TCP/IP protocal
- ●Network cable CAT5 / CAT6 connection
- ●Wall mounted

►Indoor Monitor

- ●7 inch LCD 1024*600 piexl
- ●Power Adapter or POE
- ●DC 12-24V Power
- ●ABS Plastic + PET
- ●Support WIFI 2.4G
- ●Operating Temperature: -30℃~ +60℃
- ●Dimensions:190*122*17mm
- ●Color: White / black optional
- ●Language: English / Turkish / Spanish / French Customize

►Outdoor Station

- ●HD 1080P , 2MP Camera
- ●DC 12-24V power from indoor monitor

6. Maximum: 2 outdoor units with 4 indoor monitors conect directly no need POE.
7. 2 Locks connection can open 2 door : 1 lock is connected to the indoor monitor to give the unlocking signal, and the other lock is connected to the outdoor to give the unlocking signal.
8. the outdoor station have interface to connect electronic lock and magnetic lock (magnetic lock with 5 seconds delay) ; if connected to the electronic lock, the distance within 20 meters between outdoor station and indoor monitor , the outdoor station and electronic lock both can be powerd directly from indoor monitor adapter (save the cost of lock power). If connect to magnetic lock need the independent power supply to magnetic lock.

Specification

- ●Connection:4-wire RVV Cable
- ●Installation : Wall mounted
- ●Net weight: 1.3 kg
- ►Indoor Monitor LNX-M72T
- ●Display: 7 inch LCD 800*480 pixel
- ●Power: DC 18V 1A (powered by adapter)
- ●Material: High Quality ABS + Acrylic Panel+ Full Touch Screen
- ●Operating Temperature:-20℃~55℃
- ●Color: White/Black
- ●Outline Dimensions: 190(L)x18(W)x122(H)mm

- ►Outdoor Station LNX-P5
- ●Camera: HD 1000TVL
- ●Viewing Angle: 100º
- ●Night Vision: White light, 6PCS White LEDS
- ●Accessory: Rain Cover
- ●Waterproof: IP 65
- ●Power: DC18V 1A (powered by indoor unit)
- ●Material: High Quality ABS + Acrylic Panel + Press Button
- ●Operating Temperature:-30℃~70℃
- ●Color: Silvery+Black
- ●Outline Dimensions: 62(L)*38(W)*132(H)mm

IP Outdoor Station

Function

1. Aluminum alloy shell, physical buttons, metal material, embedded box.
2. HD camera light compensation with night vision function
3. Two-way call, talk, intercom, unlocking
4. One key to call administrator.
5. Push button to call tenant directly. Maximum connection 1-8 households. Push button with room number label.
6. Multiple unlocking methods: ID/ IC card; NFC card; indoor monitor; management center guard station, management PC application to open the door.
7. IP54 waterproof rating, all-weather protection.
8. Can be connected with electric lock, magnetic lock, cathode lock, etc.

Specification

- Resolution: 1080P 2 megapixels, 1 camera
- 130° wide viewing angle
- Supports connection of 8 families
- Material: Aluminum housing Aluminum housing +
- metal physical buttons
- Network transmission mode: TCP/IP protocol
- Connection: CAT5/ CAT 6
- Ethernet Interface: RJ45
- Charging: Power supply
- IC card capacity: ≥20000
- Working current: ≤500mA
- Operating Voltage: DC 12-15V
- Operating Temperature: -40℃~ +70
- Overall Dimension: 268*140*50 mm
- Installation size: 258*130*50mm

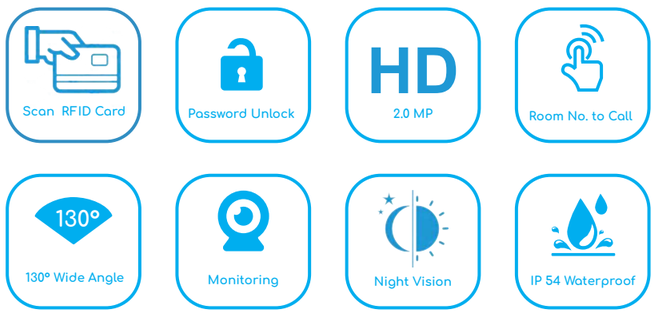
IP

IP-D33S



IP Outdoor Station

Function

1. LED Segment display , Aluminum alloy shell ,physical press button, metal material , Embedded box.
2. HD camera light compensation with night vision
3. Dual way call , talk , intercom , unlock
4. Enter 1/ 2 /3 or 4digit room number to call. for example 1, 11 , 111 ,1111.
5. Various unlock ways: ID/ IC card; NFC card; public & private passcode ; indoor monitor; management center guard staion, management PC application to open the door.
6. IP54 water proof, weather protection.
7. Can connect with electric/ magnectic/ cathode lock ,etc.
8. Call lift function can be realized via lift control linkage module .

Specification

- Resolution: 1080P 2 MP , 1 Camera
- Display: LED Segment Display
- 130° wide view angle
- support connect 9999 households
- Material: Aluminum alloy shell + Metal physical press button
- Network Transmission Mode: TCP/IP protocal
- Connection: CAT5/ CAT 6
- Ethernet interface:RJ45
- Charge: non-standard POE switch / Power
- IC Card Capacity: ≥20000
- Operation Current: ≤500mA
- Operation Voltage: DC 12-15V
- Operation Temperature: -40℃~ +70℃
- Outline Dimensions: 323*130*40mm
- Installation Dimensions: 298*113*33mm
- Installation: Wall-mounted or Embedded

IP 4.3 inch

IP Indoor Monitor

Function

1. IP 7" color capacitive full touch screen indoor monitor
2. Video call, talk, intercom , unlock , room to room call , flat to flat call,call management center.
3. Support connect CCTV Camera by Onvif protocal
4. Monitoring IP villa , apartment outdoor , IP camera
5. Snapshot photo when vistor call, Support 8 photos, 8 leave messges, 10 call records in local storage .
6. Public and privite message, security, alarm, photo and call records.
7. Smart home function can be realized via RS 485 module
8. Call lift function can be realized via lift control linkage module
9. Scene: Go home / Leavehome/ Sleep,etc.
10. Support 8 denfence zones, can connect with wired detectors to ensure home security.
11. SOS one button for help to management center.
12. Open 1 door

Specification

- Display Screen : 4.3 inch TFT LCD
- Resolution: 480*320 pixels
- System: Linux system
- Network Transmission Mode: TCP/IP protocal
- Connection:network cable CAT5/CAT6
- Ethernet interface:RJ45
- Color: black / white / customize
- Language: English / Turkish / Spanish / French / Customize
- Material: ABS Plastic + PET
- Charge: non-standard POE switch / Power adapter
- Operation Voltage: DC 12-24V
- Operation Current: ≤500mA
- Operation Temperature: -30℃~+60℃

3.open the door with password function.
4.support RJ45 network cable interface. 5.aluminum alloy body..
6.mechanical buttons.
7.TFT color LCD display.
8.CMOS color camera.
9.background light compensation function.
10. Installation: Wall-mounted or Embedded installation.

Specification

Camera: 1/3" CMOS
Definition: 700TVL
Display: LED Segment Display
Call time limit: 120 seconds
Working current: less than 500mA
Working voltage: DC 15V-18V
Working temperature: -30℃-60℃
Dimensions: 323*130*40mm
Installation size: 298*113*33mm

Analog

LNX-D32S

Analog Outdoor Station

Function

1.Support IC card, ID card.

2.access control function.

3.open the door with password function.

4.support RJ45 network cable interface. 5.aluminum alloy body..

6.mechanical buttons.

7.TFT color LCD display.

8.CMOS color camera.

9.background light compensation function.

10. Installation: Wall-mounted or Embedded installation.

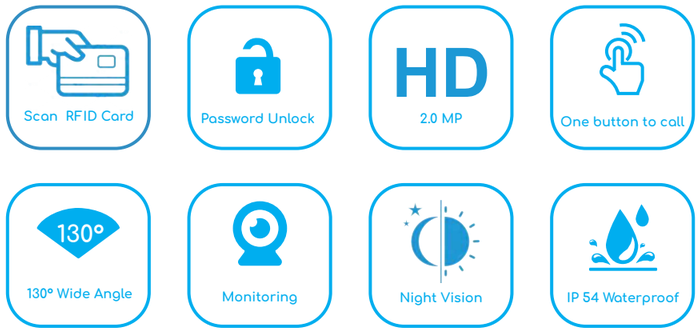
AUX-D52



Non-visual Outdoor Station

Function

1, Digital tube display, support ID card swipe.

2, Supports RJ45 network cable interface, aluminum alloy body, mechanical buttons, embedded installation.

3, High-definition LED display; aluminum alloy luxury brushed panel, elegant appearance, ‘ shockproof, anti-corrosion, anti-vandalism;

4, Call indoor station; support multi-unit door station; open/closed status detection;

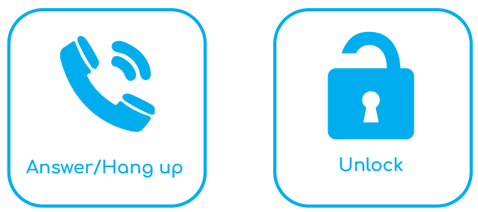
5, Built-in ID access control smart card unlocking; user independent\public password unlocking ; Embedded iron box installation;

6,Working voltage DC15V; Power consumption 1W in standby, maximum 6W in operation; Talk time limit 60 seconds; Working temperature/humidity -10~55 degrees 10~95%;

7,Overall size 326*123*13(MM), embedded bottom box size: 302*113*33(MM).

Handset

AUX-A01



Non-visual Indoor Monitor

Function

1, Mechanical buttons, voice calls, remote unlocking, wall-mounted installation, 2-core wire strip interface.

2, Hands-free calls, personalized 64 polyphonic ringtones;

3, Working power DC15V; power consumption 0.2W standby, maximum 0.45W working;

audio distortion less than 5%; video input 1VP-P/75 ohm; call time ≤ 60 seconds; working Temperature/humidity -10～55 degrees 10～95%.

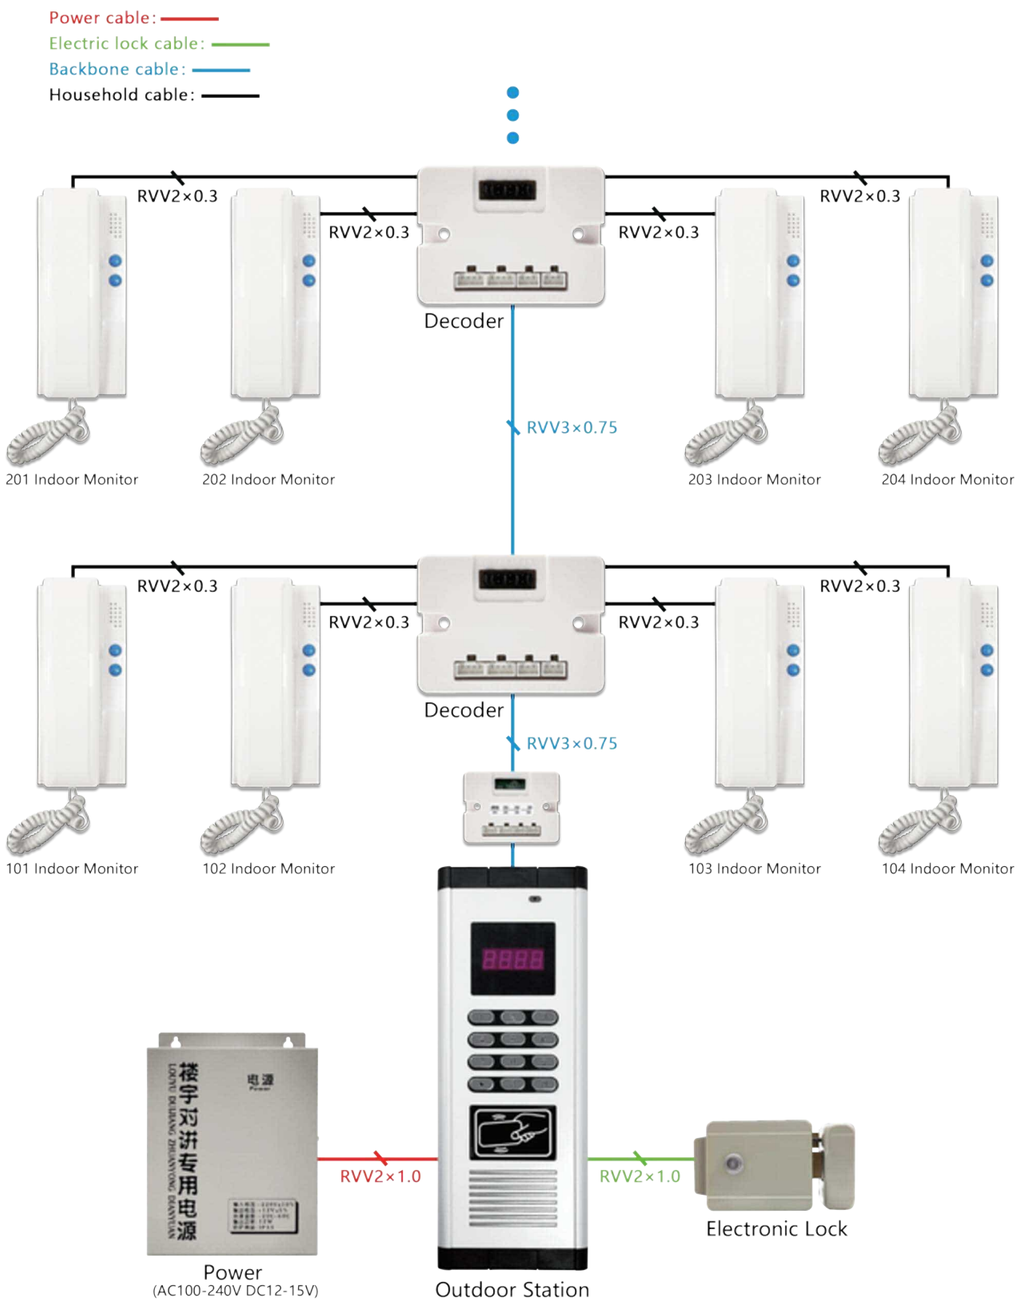
AUX-DE02

AUX-MS-4A

Model	Features
SNX-DP-153	1, Supply power to the host in the building intercom system, and can supply power to electronic locks or magnetic locks. 2, Product size: 200*160*72mm; product composition: including 4.15A switching power supply; input voltage: 100-240VAC; output voltage: 15VDC; output current: 4.15A; output power: 62W; ripple and noise: <150mVpp; voltage Adjustment range: 12-15Vdc; general specification operating temperature: -10℃-+70℃; working humidity: <95%.
SKY-AUX-MS-4A	1.Each one can connect 4 households. 2.This intermediate equipment is used to connect extensions to the system to ensure system security and stability.
SKY-AUX-DE02	1.Expand the equipment of multiple door stations for the unit subsystem. 2.It can be connected up to 4 outdoor stations.

Non-visual Digital Host System Diagram



Note:

When the unit building is below 10 floors, RVV3X0.75 sheathed wires are laid on the main line; When the unit building is below 20 floors, RVV3X1.0 sheathed wires are laid; When the unit building is below 36 floors, RVV3X1.5 sheathed wires are laid. An outdoor station can connect up to 1024 households. Each decoder can connect 4 households in 1 floor. Please add another one decoder if over 4 households in 1 floor.If you have any questions, please contact our technical department.

07

IP+Analog Mixed Apartment

Introduction:

The IP system uses the TCP/IP protocol, and the analog system uses the 485 protocol. SKYNEX has developed IP+Analog video door outdoor station intercom system combining TCP/IP protocol and 485 protocol with advanced technology. This system combines two different communication technologies. It is mainly composed of indoor monitor, outdoor station, analog specialized POE switch, aggregation switch, and property management center guard station.

In IP+Analog mixed system unit internal indoor monitor is analog, and external outdoor station is IP. and the IP signal is converted to analog signal and the aggregation function is realized through SKYNEX specialized aggregation switch. Thus to provide users with lower cost, more flexible, good audio and video effect, long transmission distance, stable and reliable communication solutions.

Lock

Model	Features	Functions
SKY-280S	1. single door magnetic lock 2.With lock status indicator, unlocking delay, feedback function 3.Compatible with access control system, building intercom system, fire linkage control system, any access control system. 4.Can be suitable for installation on fire doors, wooden doors, stainless steel doors, iron doors, glass doors and almost all types of door frames.	●Withstand tension: 280Kg ●DC 12V/0.25A ●Wall-mounted and embedded mounted ●Dimensions:26.6* 6.1 * 6.1 mm ●Net weight 1.86 kg ●kit matching lock L-bracket
SKY-280D	1. double door magnetic lock 2.With lock status indicator, unlocking delay, feedback function 3.Compatible with access control system, building intercom system, fire linkage control system, any access control system. 4.Can be suitable for installation on fire doors, wooden doors, stainless steel doors, iron doors, glass doors and almost all types of door frames.	●Withstand tension: 280Kg ●DC 12V/0.25A ●Wall-mounted and embedded mounted ●Dimensions: 60.5* 6.1 * 6.1 mm ●Net weight: 3.65kg ●kit matching lock L-bracket
SKY-280DJS-1	1. compatible with building system and access control system. 2. when turns out the lock tongue after opening the door, automatically retract the lock tongue and lock normally. 3. Can install in left door, right door, inside door, outside door and other door. 4. Automatic lock status check function, the door is automatically locked in 5~8 seconds after opening the lock by mistake or no one enters. 5.Service life of more than 500,000 times 6. high switch sensitivity , low power consumption, unlocking noise is small. 7.open door from inside by rotate lock, open door from outside by keys. Specially for apartment	●Operating voltage: DC12-DC 18V ●Switch lock current: < 350mA ●Static current: < 25mA ●Unlocking time: < 1S
SKY-280DJS-2	1. compatible with building system and access control system. 2. when turns out the lock tongue after opening the door, automatically retract the lock tongue and lock normally. 3. Can install in left door, right door, inside door, outside door and other door. 4. Automatic lock status check function, the door is automatically locked in 5~8 seconds after opening the lock by mistake or no one enters. 5.Service life of more than 500,000 times 6. high switch sensitivity , low power consumption, unlocking noise is small. 7.open door from inside by rotate lock, open door from outside by keys. Specially for apartment	●Operating voltage: DC12-DC 18V ●Switch lock current: < 350mA ●Static current: < 25mA ●Unlocking time: < 1S
SKY-YJS	Scope: applies to office buildings, wooden doors, stainless steel doors, fire doors, residential Entrance doors, Intelligent electric cabinet, storage cabinet, And anode mechanical lock or ball-type supporting use of locks.	●Voltage DC12-15v ●embedded installation
SKY-DCS	1. Power on to lock, power off to unlock. 3. Concealed 2-wire low-temperature electric plug lock 4. Door opening mode: power lock, magnetic induction, power off unlock 5. kit matching with Aluminum alloy door clamp,Small door clamp 6. For frameless glass , wooden , iron doors	●aluminum alloy,duarable. ●Starting current: 0.9A ●Working current: 0.45A ●Size: 200x34x43mm

IC Card Issuer

SKY-IP-ICR

blue card

SKY-IC/ID-1

White card

SKY-IC/ID-2

expoxy card

SKY-IC/ID-4

RFID Card

Model	Features	Functions
SKY-IP-ICR	Exclusively for digital community system card issuance.The card issuer is a tool for reading and writing operations on the card, but it is different from the reader, card reader or reading head. The card issuer can perform operations such as card reading, writing, authorization, and formatting. The main function is to initialize the card, register and logout in the access control system. The main functions of the card issuer are: 1. The USB interface is used for power and communication, no external power supply is required, and the light and sound prompts the working status. 2. USB interface for power and communication, no need for external power supply, light and sound prompts the working status. 3. Set the user card swiping authority, valid period of use or number of times of use. 4. Set and modify the area code, date and clock, unlock time, blacklist processing, etc. of the controller by setting the management card.	●5port 10/100M fast Ethernet switch ●5V 1A ●External power ●Metal housing ●size:97*65*25mm
SKY-IC/ID-1	1.High quality chip, sensitive sensing 2.ABC environmental protection material, not easy to wear, waterproof and anti-fall 3.Application scenarios: access card, elevator card, parking card, time card,coded lock card	●size: 27*35*44mm ●sensing distance: 1-5 cm ●Material: High quality PVC, copper wire, authentic chip ●Temperature: -20℃~ +50℃ ●Package:100pcs/ bag
SKY-IC/ID-2	1.High quality chip, sensitive sensing 2.ABC environmental protection material, not easy to wear, waterproof and anti-fall 3.Application scenarios: access card, elevator card, parking card, time card,coded lock card	●size: 85*54*0.8mm ●sensing distance: 1-5 cm ●Material: High quality PVC, copper wire, authentic chip ●Temperature: -20℃~ +50℃ ●Package:10pcs/strip, 200pcs/ box
SKY-IC/ID-4	1.Swipe card induction: high sensitivity, fast frequency, fast reading speed 2.Compact and intelligent: can be hung on the key chain, easy to carry 3.Strong water resistance, not easy to wear, anti-corrosion 4.Application scenarios: access card, elevator card, parking card, time card,coded lock card	●size:50*30*3.5mm ●sensing distance: 2-10 cm ●Material: High quality PVC, copper wire, authentic chip ●Temperature: -20℃~ +50℃
